

Noah Brooks

We appreciate the opportunity to share what the RECing Crew means to us and our son, Noah.

Special needs circumstances have a way of isolating not only the individual, but the parents or care givers. Being a part of the RECing Crew community has given us the ability to interact with other parents who have been and are going through similar situations. It has also provided our son opportunities he otherwise might not have experienced. He enjoys taking part in art, baseball, basketball, but his favorite must be bowling. He even chose to have a bowling symbol on his class ring. Win or lose, he always has fun, but it is an especially good day if he gets a "turkey" (3 strikes in a row).

These are just a few reasons we are so grateful for the RECing Crew.

Respectfully,

Pam and Brad Brooks
